Norfolk, VA 23502
Phone: (757) 855-6006
Fax: (757) 852-2401

The purpose of each Bauer Compressor Training School is to provide a basic understanding of the workings and service techniques of a Bauer compressor system. At the completion of the course, students should be able to perform the basic maintenance required for their compressor.

To reserve a seat in the class, a non-refundable deposit of \$175.00 per student must accompany the training school application. This deposit **MUST** be paid by check or credit card only. The balance of the school fee must be paid prior to the start of the chosen session.

If a cancellation is received less than thirty (30) days prior to the scheduled class date, a \$75.00 Administrative Fee will be deducted before the remaining deposit balance is transferred to a future class date. The remaining deposit balance will be similarly attached for any future last minute cancellations. Additional deposit will be required prior to class registration. If a student fails to report at the beginning of their assigned session without notice, their entire fee will be forfeit.

Please feel free to contact the School Coordinator for any further information.

BASIC TECHNICAL CLASS

This class is designed for and oriented around high-pressure compressors with applications in diver's breathing air and paintball.

The following topics are covered:

- Basic mechanical theory & troubleshooting
- Basic control system theory (electric/pneumatic) & troubleshooting
- Purification systems
- Basic units/parts nomenclature
- Parts ordering procedures
- Warranty policies & procedures

Organizations sending students to this Bauer School should arrange travel schedules to allow ample time for reporting to class. The class schedule is 9:00 A.M. to 4:00 P.M. both class days.

The cost this two day training school is \$550.00 per student. This cost covers the tuition for the course, as well as all study materials and workshop manuals, which are retained by the student. Accommodations and transportation are the responsibility of the student. Bauer will provide lunch both school days. A certificate of completion will be awarded upon completion of the course.

Classes are restricted to 8 students each, with a minimum of 4 students registered and confirmed in order to hold the class. Applications must be completed and accompanied by the deposit as described earlier. It is suggested that the application and deposit be forwarded as soon as possible, as our classes fill well in advance of their scheduled dates.

Please feel free to contact the School Coordinator for any further information

CLASS APPLICATION

STUDENT NAME			
COMPANY NAME			
ADDRESS			
CITY / STATE / ZIP			
PHONE		FAX	
E-MAIL ADDRESS			
COMPRESSOR MODEL		SERIAL NUMBER	

In an effort to make the class as personally identifiable as possible, the following questionnaire has been designed to give the instructors an understanding of your prior experience with compressors, as well as what you expect of this class.

1. How many years of experience do you have in the compressor industry? With Bauer Compressors?

2. If you have worked with Bauer compressors, how many and which models? If not, which model(s) are you interested in learning more about?

3. What areas of the compressor system do you feel you need additional assistance?

4. What do you expect to learn from this class?
